Week beginning 8th June

As we have now finished the algebra unit I would like to start some past papers before moving on.

This week I will ask you to try complete a full past paper from Edexcel June 2017.

This is the level of maths you will be asked to do in June 2021.

Papers are easier at the start and then get more difficult,

This consists of 3 papers. Paper 1 is non calc and P2 and P3 are calc.

There are 80 marks on each paper so that is 240 marks in total.

Each paper lasts for 1hr 30min so there is lots to do.

Each question has Mr Neill's video solution attached so you can check the answers by scanning the QR code.

Here are the Grade boundaries

Grade 5 158/240

Grade 4 122/240

Grade 3 90/240

Grade 2 58/240

Grade 1 26/240

Any questions speak to me through google classrooms.
