Topic: Practise your times tables for 1 hour each week.

The image shows a colorful illustration of four cartoon characters (Squeebles) at the top: a blue bird-like character with the number 6, a yellow character with the number 2, a green character with the number 3, and a red character with the number 7. Below them is a speech bubble containing the text "Squeebles Times Tables Grid". Underneath the speech bubble is a 12x12 grid of numbers. The grid is designed to help practice multiplication tables. The first row and first column are labeled with numbers 1 to 12. The diagonal cells from top-left to bottom-right (1x1, 2x2, 3x3, etc.) are highlighted in pink. The rest of the grid cells are light grey.
