Topic: Practise your times tables for 1 hour each week.

The image features a colorful illustration of four cartoon characters (Squeebles) at the top: a blue butterfly-like creature with the number 6, a yellow character with the letter j, a green triangle with the number 3, and a red character with the number 3. Below them is a speech bubble containing the text "Squeebles Times Tables Grid". The main part of the image is a 12x12 multiplication grid. The columns are labeled 1 through 12 at the top, and the rows are labeled 1 through 12 on the left. The grid contains the products of the numbers 1 to 12. The diagonal cells (where the row number equals the column number) are highlighted in pink: 1, 4, 9, 16, 25, 36, 49, 64, 81, 100, 121, and 144.
